## Programming Projects

### Personal Website v2
Jan 2021
▷ A Pixel-Perfect Portfolio site designed and coded from scratch to showcase my skills and past work, that gets improved as I learn something new.
▷ it's an open-source project on GitHub
▷ Built using JavaScript, React, Node.js, Gatsby

### Witty Theme
Oct 2020
▷ A Shopify store theme with many powerful built-in plugins such as currency convertor
▷ Built using JavaScript, Liquid, Shopify API, SCSS

### Movie Browser App
Feb 2020
▷ CS50 Mobile Project 2
▷ It's a Mobile App Brower to search for your favorite movie info like its rating, director, and etc…
▷ Built using React Native that works in IOS and Android.

### The Pomodoro App
Jan 2020
▷ CS50 Mobile Project
▷ t's a Mobile App Timer that uses the Pomodoro technique for time management.
▷ And it vibrates after every interval and built using React Native that works in IOS and Android.

### Payify
Nov 2019
▷ CS50's Final Project
▷ It's a money transfer service that you can transfer money to any user on Payify by his email address but still on beta, You can't deposit or transfer real money yet.

### Personal Website v1
Oct 2019
▷ My first portfolio website I designed and built. I learned quite a bit about HTML, CSS, and JavaScript. Since then, I think my web development and design skills have improved immensely.

### React Profile
2021
▷ The online version of my 2021 resume made for fun.
▷ I was interested in learning React.js, so I found a simple tutorial and it spun into a weekend project.

### Gity Profile
2019
▷ A nicer look at your GitHub profile and repository stats with data visualizations of your top languages and stars.
